

SUPPLEMENTARY FIG. 1. Global distribution of the burden of CKD attributable to high systolic blood pressure among young adults aged 25-49 years in 204 countries. (a) Death rates attributable to high SBP-related CKD by country in 2021. (b, c) Absolute change in the number of deaths and EAPC in death rates attributable to high SBP-related CKD from 1990 to 2021 by country. (d) DALY rates per 100,000 population attributable to high SBP-related CKD by country in 2021. (e, f) Absolute change in the number of DALYs and EAPC in DALY rates attributable to high SBP-related CKD from 1990 to 2021 by country. CKD, chronic kidney disease; DALY, disability-adjusted life year; EAPC, estimated annual percentage change.
